

## *Testimonials From Some Satisfied Partners*

*"In times that almost always seem to be filled with bad and even worse news, it's been great to see Chris and his team focus on the positive.*

*ValpoLife.com does a great job telling the stories through words, photos and videos. There is much to be said for a strong work ethic, led by Chris."*

*"A different kind of testimonial for a different kind of company. ValpoLife is geeky in a good way, passionate in an explosive way and professional in a perfect way. Delivering the "WOW" to your clients is not always easy, yet ValpoLife has done it over and over for our company. Not only do we get continual exposure on multiple social media sites, our business website on ValpoLife was created in less than 24 hours, launched shortly after and has more pizzazz than our own site. This has been one of the best avenues for promoting our company and exceptional value at the same time.*

*"I appreciate the casual grace by which Valpo Life handles our content. I let them know a good story, tell them what I want linked, how much of the content I want posted and they do the rest. And then they email you to let you know it's up and give you a link you can send to friends and family."*

**- Nat Finn, Golden Technologies**

*"Contributing to ValpoLife is as easy as writing and sending an email. Anytime I have something new to say about the business, I only have to send an email to see it 'magically' appear on the ValpoLife site. I have never had to wait longer than a day to see the new post, and usually it is done within a few hours."*

**- Jesse Harper, Owner, Dogfish Productions**

*"I have worked with Chris on some things for ValpoLife and have a great admiration for his way of doing business. The client is first, first, first. You don't find people who share your ideals in business very often. The speed and accuracy of what they do is refreshing in a world of "we'll get to that". I am excited about all the other new Life projects to come. The response to our web video and profile on ValpoLife has been fanatastic and I look foward to many more mutual projects."*

*"I just wanted to let you know that we are very impressed with your entire organization! I have no idea how you can keep up with Valpo Life with informative, valid and upbeat articles in "now time." You and your staff work very hard and have great vision! You should consider running a seminar for businesses on how your idea's come to reality! Marketing has changed dramatically in a short time period, and your company is the cutting edge of what needs to be done and viewed by our community. Keep up the great work! It has been a pleasure working with you and your staff."*

**Jan Stump, Owner Tudor Floors Carpet One**

*My association with ValpoLife.com has been exceptional. As one of the first business owners to utilize their website, I recognized immediately what an amazing addition this was to our entire community. Too many media outlets focus on the negative things that happen in any community, but ValpoLife.com focuses exclusively on all of the fantastic events, activities, people, and businesses that Valparaiso and Porter County as a whole have to offer. The amount of information, news, articles, results, and overall content is mind-boggling. There is truly something for everyone, and the site is updated daily to remain current and fresh.*

*As a business owner, it's important that my dental practices be portrayed in the most accurate and positive light possible. Chris Mahlman and his team have always gone "above and beyond" the call of duty to help us to promote our business and educate the community about what is new and exciting in the world of dentistry. I can't thank ValpoLife.com enough for all that they have done for Valparaiso and my businesses over the years. We are truly blessed to have this group as a major, positive contributor to our quality of life.*
